

AJAY GARSHAKURTHI

Electronics & Communication Engineering Student | AI • VLSI • Python • IoT

Hyderabad, India | +91-7013080514 | ajaygarshakurthi9@gmail.com | linkedin.com/in/ajaygarshakurthi

PROFESSIONAL SUMMARY

Third-year B.Tech ECE student with active internship experience in AI-based audio transcription (Infosys Springboard) and VLSI digital circuit design. Proficient in Python, machine learning, IoT systems, and speech-to-text technologies. Seeking an internship or entry-level role in AI/ML, VLSI, or embedded systems.

EDUCATION

B.Tech – Electronics & Communication Engineering | Malla Reddy College of Engineering, Hyderabad

Jul 2023 – Present

- Cumulative GPA: 7.57 / 10

Intermediate (10+2) | Raghavendra Karimala Junior College, Mancherla

2021 – 2023

- Score: 91.6%

SSC (10th Grade) | Z.P.H.S. Indhanpally, Mancherla

2020

- GPA: 10 / 10

INTERSHIPS

AI Intern | Infosys Springboard

Feb 2026 – Present

- Building an AI-based audio transcription system using Python and speech-to-text models.
- Performing audio analysis and signal processing to improve transcription accuracy.
- Integrating OpenAI API and machine learning tools into a production pipeline.

VLSI Design Intern | Skill Intern Pvt. Ltd.

Oct 2025 – Present

- Assisting in digital circuit design, functional simulation, and circuit analysis.
- Supporting verification and testing workflows for chip-level modules.

PROJECTS

Automated Podcast Transcription & Topic Segmentation

Jan 2026 – Present

- Engineered an end-to-end system converting podcast audio to text using speech-to-text models.
- Implemented NLP-based topic segmentation to divide content into timestamped sections.
- Leveraged Librosa and OpenAI API for audio preprocessing and feature extraction.

Embedded IoT System for Autonomous Resource Management

- Designed a smart IoT system for real-time resource monitoring and optimization in industrial environments.
- Integrated sensors and embedded controllers for automated data collection.

Cricket Player Performance Prediction Using Machine Learning

- Developed an ML model to predict player accuracy using historical statistics and feature engineering.
- Applied data preprocessing and Python-based ML algorithms to deliver reliable predictions.

TECHNICAL SKILLS

Programming Languages: Python, C

Libraries & Frameworks: Librosa, OpenAI API, Streamlit

Technologies: Artificial Intelligence, Machine Learning, IoT, Speech-to-Text, NLP

Tools & Platforms: VS Code, Excel, Power BI, HTML, CSS, JavaScript

Hardware / Domain: VLSI Design, Digital Circuit Design, Embedded Systems

CERTIFICATIONS

- Introduction to Artificial Intelligence
- Getting Started with Artificial Intelligence
- Introduction to Natural Language Processing

- Build RAG Chatbot with Python
- Python Bootcamp | Basics of Python
- Advanced Data Analysis using Excel and Power BI
- HTML & CSS Bootcamp | JavaScript Bootcamp
- Time Management

ADDITIONAL INFORMATION

Core Strengths: Problem Solving, Quick Learner, Leadership

Languages: English, Telugu, Hindi
